

FACT SHEET

About Bio-Rad

Bio-Rad Laboratories, Inc. is a global leader in developing, manufacturing, and marketing a broad range of products for the life science research and clinical diagnostics markets. Focused on quality and customer service for over 70 years, Bio-Rad operates a global network of research, development, manufacturing, and sales operations. Our customers include universities, research institutions, hospitals, food safety and environmental quality laboratories, and biopharmaceutical companies. Together, we develop innovative, high-quality products that advance science and save lives. To learn more, visit bio-rad.com.

Product Areas

LIFE SCIENCE RESEARCH

Bio-Rad provides instruments, reagents, software, consumables, and content for research applications in cell biology, gene expression, protein purification, protein quantitation, drug discovery and manufacture, food safety and environmental quality, and science education. Our products and solutions are based on technologies to separate, purify, identify, and analyze biological materials.

CLINICAL DIAGNOSTICS

Our clinical diagnostic products include test and information systems, test kits and specialized quality controls that are used to support the diagnosis, monitoring, and treatment of diseases and other medical conditions. We serve clinical laboratories in the global in-vitro diagnostics market with specialty focus on diabetes management, immunology, infectious disease and molecular applications, newborn screening, and transfusion medicine.

Our Mission

We advance science and save lives, together.
